

Job Title: Project Architect

SDS Architects' creative vision stems from our motto: Designed for Life. We work together to create environments for all aspects of our lives. Come join our company and join a collaborative, employee-focused culture that strives for success in all aspects of our lives.

About the area:

Eau Claire, Wisconsin, could probably lay claim to being "The Indie Capital of the Midwest," but trademarking that would be far too corporate a move for this independent-minded university town. Instead, Eau Claire, located at the confluence of the Eau Claire and Chippewa Rivers, goes its own way and encourages everyone who visits to come along for the ride. For more info on Eau Claire, visit www.thinkeauclaire.com

Responsibilities:

- Execute the development and delivery of multiple projects, including conceptual design, master planning, architectural and interior design
- Manage various phases of multiple projects simultaneously, including marketing, schematic design, design development, construction documents, bidding, negotiation, construction administration
- Oversee quality assurance and quality control
- Drive business development and client relationship management
- Establish and effectively manage profitable project budgets
- Review building, energy and life safety codes for compliance

Requirements

- Bachelors in Architectural Studies, Master of Architecture or related degree
- Active professional license and registration
- 5+ years' experience as Project Architect or Project Manager
- Proven history of successful business development
- Strong Proficiency with SketchUp and BIM (Revit) design software
- Experience in Microsoft Office and Adobe Creative Cloud software programs
- Capability for professional and technical writing

Job Type: Full-time

Compensation: Commensurate with experience

Education: Bachelor's degree
